COLLEGE OF COMPUTER STUDIES & MULTIMEDIA ARTS

In this resume, I used different principles and trends to make it visually appealing yet easy-to-read for the majority. First, I made the layout simple by not using too much borders and other designs that can ruin the appeal. Second, I made sure that the design was consistent all throughout the page. Third, I used a font style that looks clean and readable. Fourth, I used a simple color combination for the resume. Lastly the webpage is easy to navigate and get information.
